

Product Code:

7201

2-TAKT SNOWPOWER

Synthetic 2-stroke engine oil

Meets the requirements:

API TC+, JASO FD, ISO L-EGD,
BRP ROTAX 253 Snowmobile, ARCTIC CAT,
BOMBARDIER, LYNX, POLARIS, SKI-DOO, YAMAHA

MANNOL 2-Takt Snowpower is a unique oil with synthetic base for two-stroke engines of snowmobiles, utility terrain vehicles, quad bikes, scooters and other vehicles used at cold temperatures and in harsh environmental conditions. The special oil formula provides high burn-out degree and prevents surface ignition. Thanks to the low pour point (-42 °C) it provides safe cold cranking. MANNOL 2-Takt Snowpower contains a hydrocarbon mixer which provides stable instant oil and fuel mixing in frosty weather. Increases the engine life by reducing friction and consequently the wear-out. Endures race loads. Prevents deposits from forming in the engine and in the piston rings. Has perfect detergent properties. Is designed for systems with direct injection and previous mixing with gasoline. Is red for easier identification. The recommended proportion for mixing fuel with gasoline is 1:50 (check the vehicle producer's recommendations).

Product Characteristics:

Test	Method	Unit	Result
Density at 15°C	D 1298	kg/m ³	864
Viscosity at 40°C	D 445	CSt	47,97
Viscosity at 100°C	D 445	CSt	8,25
Viscosity index	D 2270		147
Flash point COC	D 92	°C	108
Pour point	D 97	°C	-38
TBN	D 2896	gKOG/kg	1,44

Volume:

1L	MN7201-1	60L	MN7201-60
4L	MN7201-4	208L	MN7201-DR
10L	MN7201-10	1000L	MN7201-IBC
20L	MN7201-20
